Cobra Slide

The cobra slide is a wave slide with double slide. The gliding track is rotating left and right, swings are rising and falling. Visitors take advantage of the high potential energy of the special raft to slide, which increases the excitement, competition and interest of the amusements, giving the gamers and bystanders a strong visual shock and a thrilling experience like shuttle through the belly of a snake.

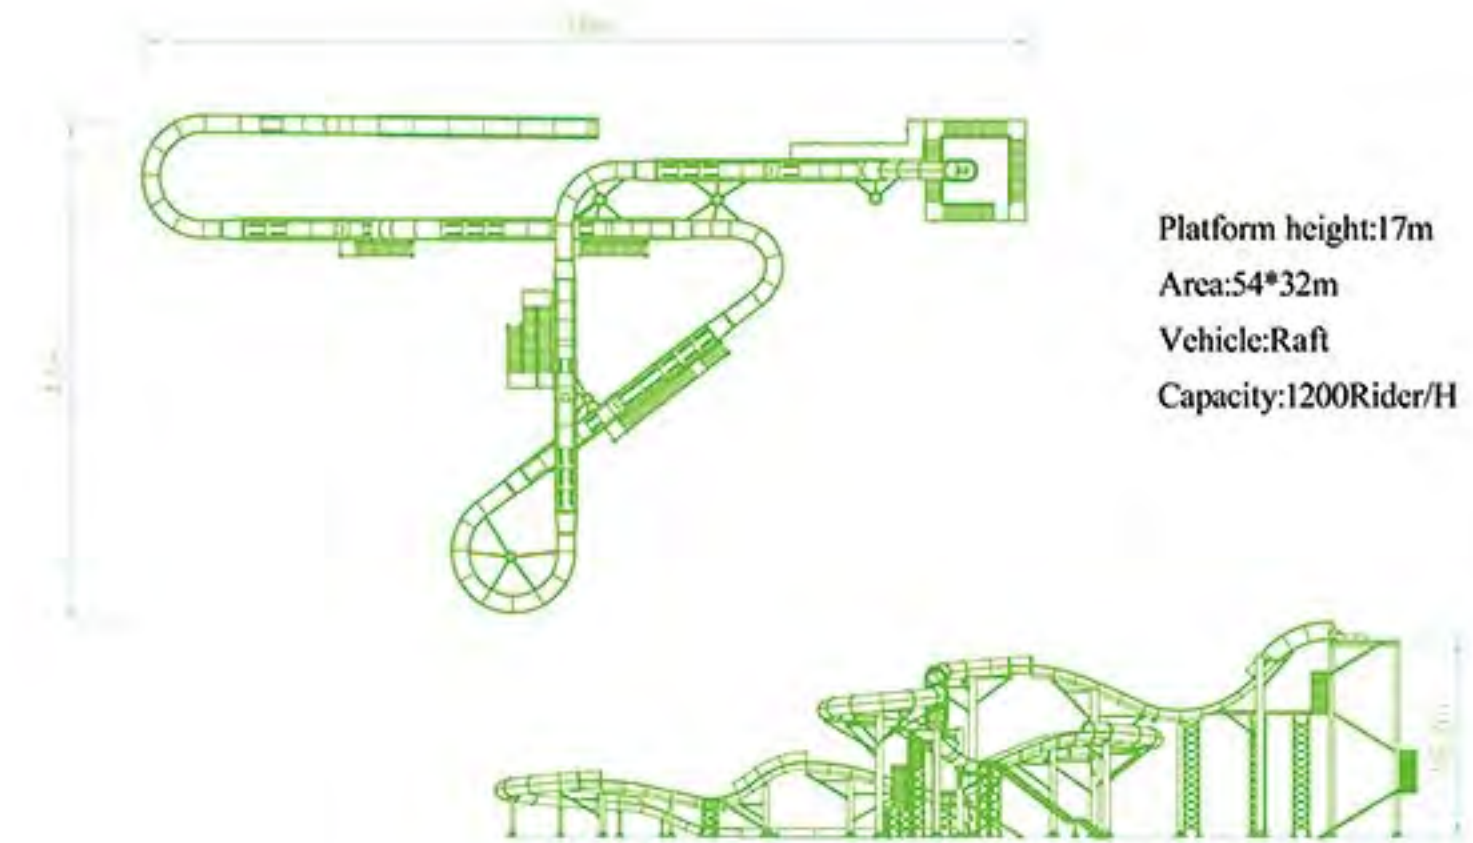

Platform height:17m
Area:58*19m
Vehicle:Raft
Capacity:1200Rider/H

Water dragon slide

Through the water slide way to experience a roller coaster of excitement. Firstly, visitors are put into a ready position, after the start, the floor at the foot of tourists will suddenly be drawn on, then tourists will fall into a sealed pipeline, and because the front of the pipe is vertical, therefore in this process, visitors will be in a state of free fall, then get enough speed so that it can smoothly through the back section of a circular curve like a roller coaster, and ultimately the same as ordinary water slide glide into the pool.

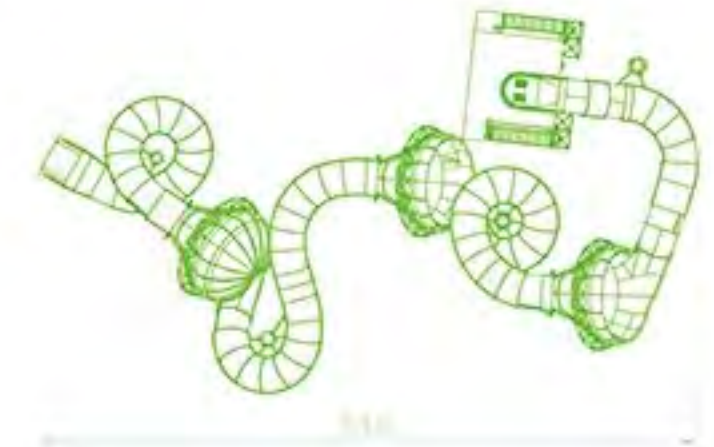

Barrel an sled slides

The design concept of Bumblebee Water Slide came from the tornado slide, giving visitors a variety of gliding experiences. The product is composed of a plurality of open trumpet slides and closed chutes. The raft carrying 4 visitors enter the tornado slide body at high speed from the closed chute, oscillate several times, enter the closed chute again and circulate, and finally slip into the pool.

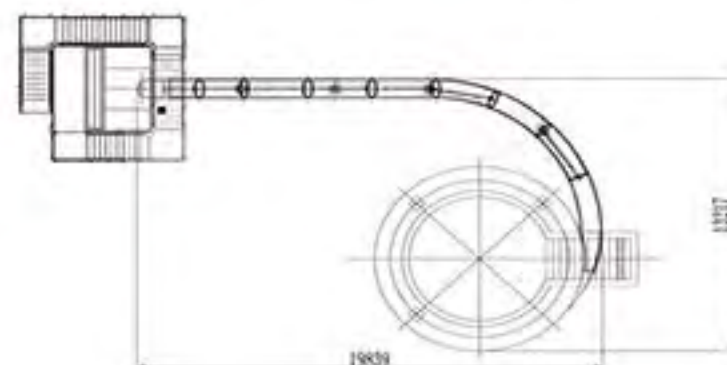

Platform height:17m
Area:76*43m
Vehicle:Raft
Capacity:600Rider/H

Platform Height:10.5m
 Power:11KW
 Area:262m²
 Vehicle:Body
 Loda:1 Rider
 Capacity:120Riders/H

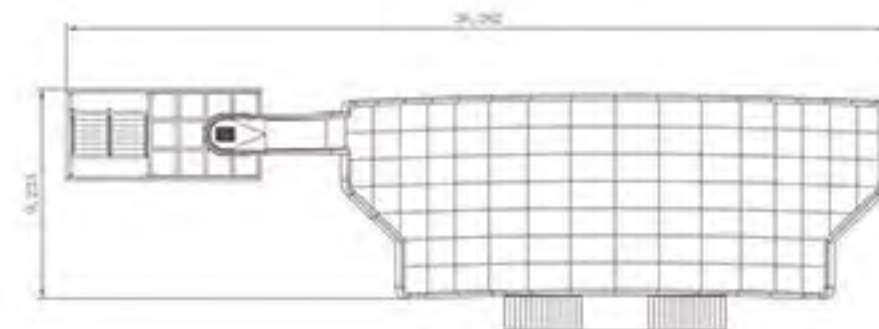

Space bowl

Space bowl is engineered to create ultimate excitement and is one of the largest rides for speed riding. Guests experience three different levels of excitement in one slide. Starting an enclosed tube exciting into a huge open bowl and continuing with several whirls around the slides of the bowl with centrifugal force. the ride finally ends with a big splash into the hole.

Platform Height:12m
 Power:16.5KW
 Area:337.6m²
 Vehicle:Raft
 Load:2Riders
 Capacity:240Riders/H

Wave Slide

Riders take rafts slide from 11m high platform, will first experience a steep drop and then are propelled uphill, just like this to experience again and again, feel the wonders of weightlessness and overweight. All the troubles and stress have been abandoned in this journey.

Rainbow slide

Big or small, long or short, if you want to increase the fun factor in your park or pool facility you must consider adding one of these slides. With the multiple rainbow slide, customers can choose to slide down with or without a standard mat. It is the version in which customers slide down with head first mats (mat racing). These interactive slides let everyone enjoy the thrill of head to head action. We offer a waterslide path of two to six lanes. A water park is never complete without a multiple rainbow slide.
