KEY SELLING POINTS

Why This Offer Stands Out

01

High-Demand 12 t Class

The Eurocargo 120E28 occupies the most commercially active truck segment worldwide — ideal for construction, municipal, and logistics operators.

02

Euro 6 Certified

Full Euro 6 compliance via SCR (AdBlue) and EGR enables immediate deployment in low-emission zones across Europe and beyond.

03

Newly Rebuilt Superstructure

Despite the 2012–2014 chassis, 400k km, every tipper body has been fully renewed — delivering near-new operational capacity at used vehicle pricing.

04

Outstanding Parts Availability

IVECO Eurocargo spare parts are broadly stocked at European dealers, minimising downtime and total cost of ownership.

05

Attractive Package Pricing

USD 220,000 for 7 units— significantly below European individual unit market prices of EUR 35,000.

06

Export-Ready / EXW Germany

All 7 units are physically available at one location in Germany. Suitable for road, RoRo, flat-rack, or containerised export.
